**E-Safety Policy**

# Contents

Introduction

## **School E-Safety Policy**

Development, monitoring and review of the Policy

Schedule for development, monitoring and review

Scope of the Policy

Roles and Responsibilities

- Governors
- Headteacher / Principal and Senior Leaders
- E-Safety Co-ordinator / Officer
- Network Manager / Technical Staff
- Teaching and Support Staff
- Child Protection / Safeguarding Designated Person / Officer
- E-Safety Committee
- Students / Pupils
- Parents / Carers
- Community Users

Policy Statements

- Education – Students / Pupils
- Education – Parents / Carers
- Education – The Wider Community
- Education and training – Staff / Volunteers
- Training – Governors
- Technical – infrastructure / equipment, filtering and monitoring
- Bring your own devices (BYOD)
- Use of digital and video images
- Data protection
- Communications
- Social Media -Protecting Professional Identity
- User Actions - unsuitable / inappropriate activities
- Responding to incidents of misuse

## **Appendices:**

- Pupil Acceptable Use Policy Agreement
- Parents / Carers Acceptable Use Policy Agreement
- Staff and Volunteers Acceptable Use Policy Agreement
- Responding to incidents of misuse – flowchart
- School Bring Your Own Devices (BYOD) Template Policy
- Glossary of Terms

## Development / Monitoring / Review of this Policy

This e-safety policy has been developed by

- *Headteacher*
- *IT Subject Leader*
- *Staff – including Teachers and Technical staff*
- *Governors*

Consultation with the whole school community has taken place through a range of formal and informal meetings.

## Schedule for Development / Monitoring / Review

This e-safety policy was approved by the <i>Board of Directors /Governing Body / Governors Sub Committee</i> on:	
The implementation of this e-safety policy will be monitored by the:	<i>IT Subject Leader, Senior Management team.</i>
Monitoring will take place at regular intervals:	<i>Once a year.</i>
The <i>Governing Body</i> will receive a report on the implementation of the e-safety policy generated by the monitoring group (which will include anonymous details of e-safety incidents) at regular intervals:	<i>Once a year.</i>
The E-Safety Policy will be reviewed annually, or more regularly in the light of any significant new developments in the use of the technologies, new threats to e-safety or incidents that have taken place. The next anticipated review date will be:	July 2019
Should serious e-safety incidents take place, the following external persons / agencies should be informed:	Essex County Council, Essex Police

The school will monitor the impact of the policy using:

- *Logs of reported incidents*
- *Monitoring logs of internet activity (including sites visited)*
- *Internal monitoring data for network activity*
- *Surveys / questionnaires of*
  - *students / pupils*
  - *parents / carers*
  - *staff*

## Scope of the Policy

This policy applies to all members of the *school* community (including staff, pupils, volunteers, parents / carers, visitors) who have access to and are users of school ICT system, both in and out of the *school*.

The Education and Inspections Act 2006 empowers Headteachers to such extent as is reasonable, to regulate the behaviour of students / pupils when they are off the *school* site. This is pertinent to incidents of cyber-bullying, or other e-safety incidents covered by this policy, which may take place outside of the school / academy, but is linked to membership of the school. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data. In the case of both acts, action can only be taken over issues covered by the school Behaviour Policy.

The *school* will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents / carers of incidents of inappropriate e-safety behaviour that take place out of school.

## Roles and Responsibilities

The following section outlines the e-safety roles and responsibilities of individuals and groups within the school.

### Governors :

*Governors* are responsible for the approval of the E-Safety Policy and for reviewing the effectiveness of the policy. This will be carried out by the *Governors* receiving regular information about e-safety incidents and monitoring reports. A member of the *Governing Body* has taken on the role of *E-Safety Governor*. The role of the *E-Safety Governor* will include:

- *regular meetings with the E-Safety Co-ordinator*
- *reporting to relevant Governors*

### Headteacher and Senior Leaders:

- **The *Headteacher* has a duty of care for ensuring the safety (including e-safety) of members of the school community**, though the day to day responsibility for e-safety will be delegated to the *E-Safety Co-ordinator*.
- **The *Headteacher* and (at least) another member of the Senior Management Team should be aware of the procedures to be followed in the event of a serious e-safety allegation being made against a member of staff.** (see flow chart on dealing with e-safety incidents – included in a later section – “Responding to incidents of misuse”)
- *The Headteacher/ Senior Leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal e-safety monitoring role. This is to provide a safety net and also support to those colleagues who take on important monitoring roles.*

### E-Safety Coordinator/Headteacher:

- leads the e-safety committee
- takes day to day responsibility for e-safety issues and has a leading role in establishing and reviewing the school e-safety policies / documents
- ensures that all staff are aware of the procedures that need to be followed in the event of an e-safety incident taking place.
- provides training and advice for staff
- liaises with the Local Authority / relevant body
- liaises with school technical staff
- receives reports of e-safety incidents and creates a log of incidents to inform future e-safety developments,
- meets regularly with *E-Safety Governor* to discuss current issues, review incident logs and filtering / change control logs
- attends relevant meeting / committee of *Governors*
- reports regularly to Senior Leadership Team

### Network Manager / Technical staff:

The *Network Manager / Technical Staff / Co-ordinator for ICT / Computing* is responsible for ensuring:

- **that the *school's / academy's* technical infrastructure is secure and is not open to misuse or malicious attack**
- **that the *school / academy* meets required e-safety technical requirements and any *Local Authority / other relevant body* E-Safety Policy / Guidance that may apply.**
- **that users may only access the networks and devices through a properly enforced password protection policy, in which passwords are regularly changed**
-

- that they keep up to date with e-safety technical information in order to effectively carry out their e-safety role and to inform and update others as relevant
- that the use of the *network / internet / and DB Primary VLE* is regularly monitored in order that any misuse / attempted misuse can be reported to the *Headteacher* for investigation.
- *that monitoring software / systems are implemented and updated as agreed in school policies*

## Teaching and Support Staff

are responsible for ensuring that:

- **through training and staff meetings that they have an up to date awareness of e-safety matters and of the current *school* e-safety policy and practices.**
- **they have read, understood and signed the Staff Acceptable Use Policy .**
- **they report any suspected misuse or problem to the *Headteacher / Senior Leader ; E-Safety Coordinator / Officer* for investigation.**
- **all digital communications with students / pupils / parents / carers should be on a professional level.**
- e-safety issues are embedded in all aspects of the curriculum and other activities
- students / pupils understand and follow the e-safety and acceptable use policies
- students / pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they monitor the use of digital technologies, mobile devices, cameras etc in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- *in lessons where internet use is pre-planned students / pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.*

## Child Protection / Safeguarding Designated Person - Headteacher

should be trained in e-safety issues and be aware of the potential for serious child protection / safeguarding issues to arise from:

- sharing of personal data
- access to illegal / inappropriate materials
- inappropriate on-line contact with adults / strangers
- potential or actual incidents of grooming
- cyber-bullying

## Students / pupils:

- **are responsible for using the *school* digital technology systems in accordance with the Student / Pupil Acceptable Use Policy**
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking / use of images and on cyber-bullying.

- should understand the importance of adopting good e-safety practice when using digital technologies out of school and realise that the *school's* E-Safety Policy covers their actions out of school, if related to their membership of the school

See appendix for E-Safety Pupil Agreement.

## Parents / Carers

Parents / Carers play a crucial role in ensuring that their children understand the need to use the internet / mobile devices in an appropriate way. The *school* will take every opportunity to help parents understand these issues through *parents' evenings, newsletters, letters, website / VLE and information about national / local e-safety campaigns / literature*. Parents and carers will be encouraged to support the *school* in promoting good e-safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- access to parents' sections of the website / VLE and on-line student / pupil records
- their children's personal devices in the school (where this is allowed)

See appendix for E-Safety Parental Agreement.

## Policy Statements

### Education – students / pupils

Whilst regulation and technical solutions are very important, their use must be balanced by educating *students / pupils* to take a responsible approach. The education of *students / pupils* in e-safety is therefore an essential part of the school's e-safety provision. Children and young people need the help and support of the school to recognise and avoid e-safety risks and build their resilience.

**E-safety should be a focus in all areas of the curriculum and staff should reinforce e-safety messages across the curriculum. The e-safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:**

- **A planned e-safety curriculum should be provided as part of Computing / PHSE lessons and should be regularly revisited**
- **Key e-safety messages should be reinforced as part of a planned programme of assemblies and activities**
- **Pupils should be taught in all lessons to be critically aware of the materials / content they access on-line and be guided to validate the accuracy of information.**
- **Pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet**
- *Students / pupils should be helped to understand the need for the pupil Acceptable Use Agreement and encouraged to adopt safe and responsible use both within and outside school*
- *Staff should act as good role models in their use of digital technologies the internet and mobile devices*
- *in lessons where internet use is pre-planned, it is best practice that students / pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.*
- *Where students / pupils are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit.*

## Education – parents / carers

Many parents and carers have only a limited understanding of e-safety risks and issues, yet they play an essential role in the education of their children and in the monitoring / regulation of the children's on-line behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will therefore seek to provide information and awareness to parents and carers through:

- *Curriculum activities*
- *Letters, newsletters, web site, VLE*
- *Parents / Carers sessions*
- *High profile events / campaigns eg Safer Internet Day, E-Safety Week.*
- *Reference to the relevant web sites / publications*  
eg [www.saferinternet.org.uk/http://www.childnet.com/parents-and-carers](http://www.saferinternet.org.uk/http://www.childnet.com/parents-and-carers)

## Education – The Wider Community

*The school will provide opportunities for local community groups / members of the community to gain from the school's / academy's e-safety knowledge and experience. This may be offered through the following:*

- *Providing family information about new digital technologies, digital literacy and e-safety*
- *E-Safety workshops targeted towards grandparents and other relatives as well as parents.*
- *The school / academy website will provide e-safety information for the wider community*

## Education & Training – Staff / Volunteers

It is essential that all staff receive e-safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- **E-safety information will be made available to staff. This will be regularly updated and reinforced.**
- **All new staff should receive e-safety training as part of their induction programme, ensuring that they fully understand the school e-safety policy and Acceptable Use Agreements.**
- *The E-Safety Coordinator / Officer (or other nominated person) will receive regular updates through attendance at external training events and by reviewing guidance documents released by relevant organisations.*
- *This E-Safety policy and its updates will be presented to and discussed by staff in staff meetings.*
- *The E-Safety Coordinator / Officer will provide advice / guidance / training to individuals as required.*

## Training – Governors

**Governors should take part in e-safety training / awareness sessions**, with particular importance for those who are members of any subcommittee e.g. health and safety / child protection. This may be offered in a number of ways:

- Attendance at training provided by the Local Authority / National Governors Association / or other relevant organisation.
- Participation in school training / information sessions for staff or parents

## Technical – infrastructure / equipment, filtering and monitoring

The school will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their e-safety responsibilities.

- **School technical systems will be managed in ways that ensure that the school meets recommended technical requirements**
- **There will be regular reviews and audits of the safety and security of school technical systems**
- **Servers, wireless systems and cabling must be securely located and physical access restricted**
- **All users will have clearly defined access rights to school technical systems and devices.**

- All users will be provided with a username and adults provided with a secure password. Users are responsible for the security of their username and password.
- The “master / administrator” passwords for the school ICT system, used by the Network Manager must also be available to the Headteacher or other nominated senior leader and kept in a secure place (eg school safe)
- IT Subject leader is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations  
Internet access is filtered for all users. Illegal content (child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list. Content lists are regularly updated and internet use is logged and regularly monitored. There is a clear process in place to deal with requests for filtering changes.
- An appropriate system is in place for users to report any actual / potential technical incident / security breach to the relevant person, as agreed). Pupils to alert teacher, teacher to alert E-Safety Officer (Headteacher).
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices etc from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up to date virus software.
- A guest login is supplied to Guests with pupil access level only.

## Bring Your Own Device (BYOD)

The educational opportunities offered by mobile technologies are being expanded as a wide range of devices, software and online services become available for teaching and learning, within and beyond the classroom. This has led to the exploration by schools of users bringing their own technologies in order to provide a greater freedom of choice and usability. However, there are a number of e-safety considerations for BYOD that need to be reviewed prior to implementing such a policy. Use of BYOD should not introduce vulnerabilities into existing secure environments.

The school has a set of clear expectations and responsibilities for all users

The school adheres to the Data Protection Act principles

All users are provided with and accept the Acceptable Use Agreement – see appendix.

All network systems are secure and access for users is differentiated

Where possible these devices will be covered by the school’s normal filtering systems, while being used on the premises

All users will use their username and password and keep this safe

Students / Pupils receive training and guidance on the use of personal devices

Monitoring of usage will take place to ensure compliance

## Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and students / pupils instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents / carers and students / pupils need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for cyberbullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- **When using digital images, staff should inform and educate students / pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet .**
- *Staff and volunteers are allowed to take digital / video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment, the personal equipment of staff should not be used for such purposes.*
- *Care should be taken when taking digital / video images that pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.*
- *Pupils must not take, use, share, publish or distribute images of others without their permission*
- *Photographs published on the website, or elsewhere that include pupils will be selected carefully and will comply with good practice guidance on the use of such images.*
- *Pupils' full names will not be used anywhere on a website or blog, particularly in association with photographs.*

## Data Protection

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998 which states that personal data must be:

- Fairly and lawfully processed
- Processed for limited purposes
- Adequate, relevant and not excessive
- Accurate
- Kept no longer than is necessary
- Processed in accordance with the data subject's rights
- Secure
- Only transferred to others with adequate protection.

The school must ensure that:

- It will hold the minimum personal data necessary to enable it to perform its function and it will not hold it for longer than necessary for the purposes it was collected for.
- Every effort will be made to ensure that data held is accurate, up to date and that inaccuracies are corrected without unnecessary delay.
- All personal data will be fairly obtained in accordance with the "Privacy Notice" and lawfully processed in accordance with the "Conditions for Processing"
- **It has a Data Protection Policy**
- **It is registered as a Data Controller for the purposes of the Data Protection Act (DPA)**
- Responsible persons are appointed / identified - Headteacher
- Risk assessments are carried out
- It has clear and understood arrangements for the security, storage and transfer of personal data
- Data subjects have rights of access and there are clear procedures for this to be obtained
- There are clear and understood policies and routines for the deletion and disposal of data
- There is a policy for reporting, logging, managing and recovering from information risk incidents
- There are clear Data Protection clauses in all contracts where personal data may be passed to third parties
- There are clear policies about the use of cloud storage / cloud computing e.g. Target Tracker data, which ensure that such data storage meets the requirements laid down by the Information Commissioner's Office

Staff must ensure that they:

- At all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.
- Use personal data only on secure password protected computers and other devices, ensuring that they are properly “logged-off” at the end of any session in which they are using personal data.
- Transfer data using encryption and secure password protected devices.

When personal data is stored on any portable computer system, memory stick or any other removable media:

- the data must be encrypted and password protected
- the device must be password protected (many memory sticks / cards and other mobile devices cannot be password protected)
- the device must offer approved virus and malware checking software
- the data must be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete

## Communications

A wide range of rapidly developing communications technologies has the potential to enhance learning. The following table shows how the school currently considers the benefit of using these technologies for education outweighs their risks / disadvantages: [Need to decide which are relevant to Beehive](#)

Communication Technologies	Staff & other adults				Students / Pupils			
	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission	Not allowed
Mobile phones may be brought to school	X						X	
Use of mobile phones in lessons				X				X
Use of mobile phones in social time		X						X
Taking photos on mobile phones / cameras				X				X
Use of other mobile devices eg tablets, gaming devices		X						X
Use of personal email addresses in school, or on school network			X					X
Use of school email for personal emails				X				X
Use of messaging apps				X				X

Use of social media				X				X
Use of blogs		X					X	

When using communication technologies the school considers the following as good practice:

- **The official DBPrimary school email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored. Staff and students / pupils should therefore use only the school email service to communicate with others in school, or on school / systems (eg by remote access).**
- **Users must immediately report, to the DBPrimary administrator – ITSL – in accordance with the school policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.)**
- **Any digital communication between staff and students e.g. DBPrimary must be professional in tone and content. These communications may only take place on official (monitored) school / academy systems. Personal email addresses, text messaging or social media must not be used for these communications.**
- **Pupils at KS1 and KS2 will have their own individual school email addresses for educational use within DBPrimary**
- **Students / pupils should be taught about e-safety issues, such as the risks attached to the sharing of personal details. They should also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.**
- **Personal information should not be posted on the school / academy website and only official email addresses should be used to identify members of staff.**

## Social Media - Protecting Professional Identity

All schools, academies and local authorities have a duty of care to provide a safe learning environment for pupils and staff. Schools/academies and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, cyberbully, discriminate on the grounds of sex, race or disability or who defame a third party may render the *school / academy* or local authority liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to pupils, staff and the school through limiting access to personal information:

- **Training to include: acceptable use; social media risks; checking of settings; data protection; reporting issues.**
- **Clear reporting guidance, including responsibilities, procedures and sanctions**
- **Risk assessment, including legal risk**

School staff should ensure that:

- **No reference should be made in social media to pupils, parents / carers or school staff**
- **They do not engage in online discussion on personal matters relating to members of the school community**
- **Personal opinions should not be attributed to the school or local authority**

## Unsuitable / inappropriate activities

The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in school or outside school when using school equipment or systems. The school policy restricts usage as follows:

Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
------------	-----------------------------	--------------------------------	--------------	--------------------------

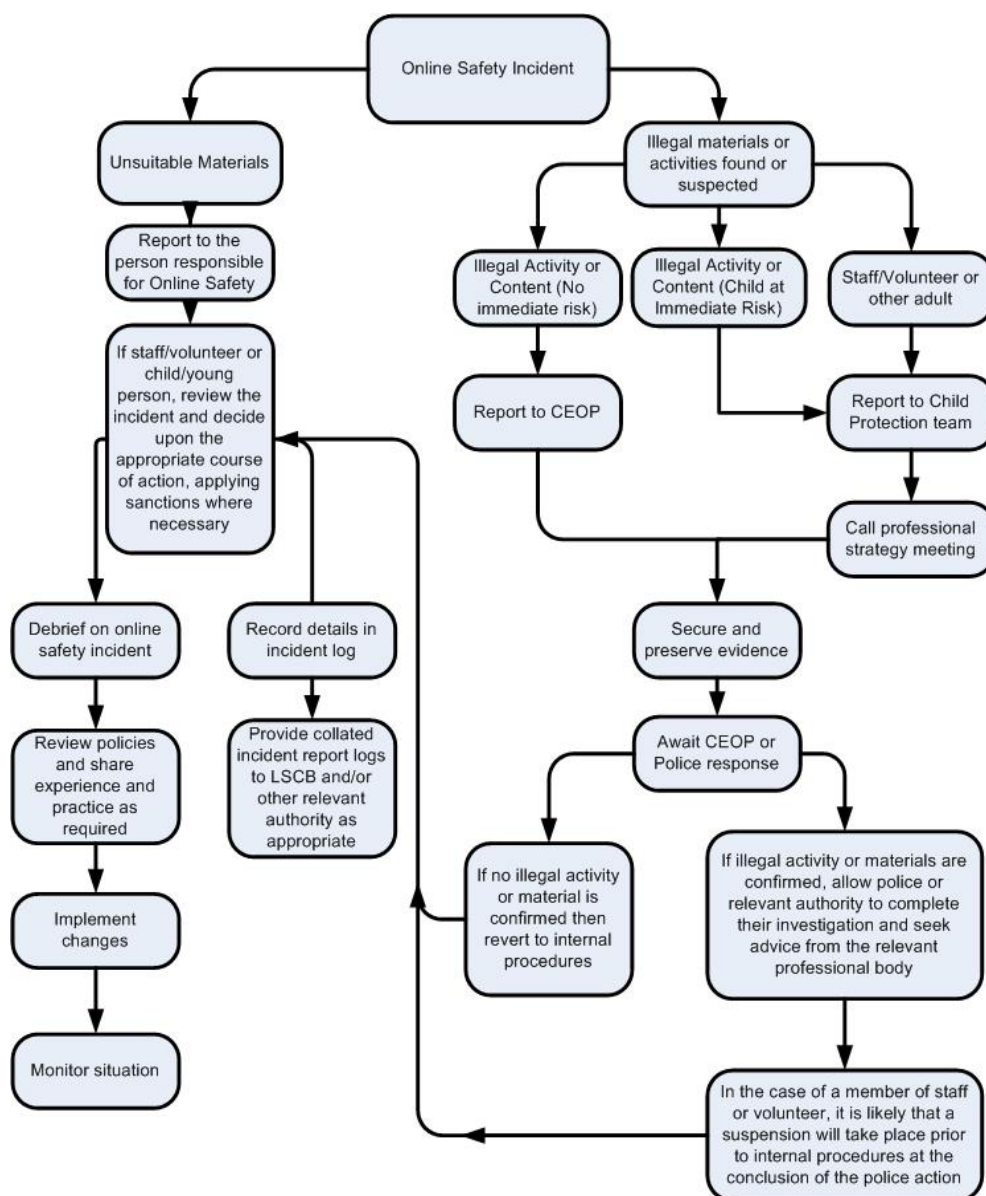

## User Actions

<b>Users shall not visit Internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:</b>	Child sexual abuse images –The making, production or distribution of indecent images of children. Contrary to The Protection of Children Act 1978					X
	Grooming, incitement, arrangement or facilitation of sexual acts against children Contrary to the Sexual Offences Act 2003.					X
	Possession of an extreme pornographic image (grossly offensive, disgusting or otherwise of an obscene character) Contrary to the Criminal Justice and Immigration Act 2008					X
	criminally racist material in UK – to stir up religious hatred (or hatred on the grounds of sexual orientation) - contrary to the Public Order Act 1986					X
	pornography				X	
	promotion of any kind of discrimination				X	
	threatening behaviour, including promotion of physical violence or mental harm				X	
	any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				X	
Using school systems to run a private business				X		
Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school / academy				X		
Infringing copyright				X		
Revealing or publicising confidential or proprietary information (eg financial / personal information, databases, computer / network access codes and passwords)				X		
Creating or propagating computer viruses or other harmful files				X		
Unfair usage (downloading / uploading large files that hinders others in their use of the internet)				X		
On-line gaming (educational)			X			
On-line gaming (non educational)				X		
On-line gambling				X		
On-line shopping / commerce		XStaff				
File sharing	XStaff					
Use of social media				XStaff		
Use of messaging apps				XStaff		
Use of video broadcasting egYoutube		XStaff				

## Responding to incidents of misuse

### Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right hand side of the Flowchart (below and appendix) for responding to online safety incidents and report immediately to the police.

IT SL to keep a log book of any DBPrimary incidents in filing cabinet.

- **Other Incidents**

It is hoped that all members of the school community will be responsible users of digital technologies, who understand and follow school policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

**In the event of suspicion, all steps in this procedure should be followed:**

- Have more than one senior member of staff / volunteer involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by young people and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the url of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine

being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see below)

- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does then appropriate action will be required and could include the following:
  - Internal response or discipline procedures
  - Involvement by Local Authority or national / local organisation (as relevant).
  - Police involvement and/or action
- **If content being reviewed includes images of Child abuse then the monitoring should be halted and referred to the Police immediately. Other instances to report to the police would include:**
  - incidents of ‘grooming’ behaviour
  - the sending of obscene materials to a child
  - adult material which potentially breaches the Obscene Publications Act
  - criminally racist material
  - other criminal conduct, activity or materials
- **Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.**

It is important that all of the above steps are taken as they will provide an evidence trail for the *school / academy* and possibly the police and demonstrate that visits to these sites were carried out for child protection purposes. The completed form should be retained by the group for evidence and reference purposes.

## Glossary of terms

AUP	Acceptable Use Policy
CEOP	Child Exploitation and Online Protection Centre (part of UK Police, dedicated to protecting children from sexual abuse, providers of the Think U Know programmes).
CPC	Child Protection Committee
CPD	Continuous Professional Development
CYPS	Children and Young Peoples Services (in Local Authorities)
FOSI	Family Online Safety Institute
EA	Education Authority
ES	Education Scotland
HWB	Health and Wellbeing
ICO	Information Commissioners Office
ICT	Information and Communications Technology
ICTMark	Quality standard for schools provided by NAACE
INSET	In Service Education and Training
IP address	The label that identifies each computer to other computers using the IP (internet protocol)
ISP	Internet Service Provider
ISPA	Internet Service Providers’ Association
IWF	Internet Watch Foundation
LA	Local Authority
LAN	Local Area Network
MIS	Management Information System

<b>NEN</b>	National Education Network – works with the Regional Broadband Consortia (e.g. SWGfL) to provide the safe broadband provision to schools across Britain.
<b>Ofcom</b>	Office of Communications (Independent communications sector regulator)
<b>SWGfL</b>	South West Grid for Learning Trust – the Regional Broadband Consortium of SW Local Authorities – is the provider of broadband and other services for schools and other organisations in the SW
<b>TUK</b>	Think U Know – educational e-safety programmes for schools, young people and parents.
<b>VLE</b>	Virtual Learning Environment (a software system designed to support teaching and learning in an educational setting,
<b>WAP</b>	Wireless Application Protocol

## Appendices

Can be found on the following pages:

Pupil Acceptable Use Agreement

Parents / Carers Acceptable Use Agreement

Staff and Volunteers Acceptable Use Agreement

Incident Log form

## Pupil Acceptable Use Agreement

I understand that I must use school ICT systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the ICT systems and other users.

### For my own personal safety:

- I understand that the *school* will monitor my use of the systems, devices and digital communications.
- I will keep my username and password safe and secure – I will not share it, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will be aware of "stranger danger", when I am communicating on-line.
- I will not disclose or share personal information about myself or others when on-line.
- If I arrange to meet people off-line that I have communicated with on-line, I will do so in a public place and take an adult with me.
- I will immediately report any unpleasant or inappropriate material or messages or anything that makes me feel uncomfortable when I see it on-line.

### I understand that everyone has equal rights to use technology as a resource and:

- I understand that the *school ICT* devices are primarily intended for educational use.
- I will not try (unless I have permission) to make large downloads or uploads.
- I will not use the *school* systems or devices for anything other than educational use as directed by an adult.

### I will act as I expect others to act toward me:

- I will respect others' work and property and will not access, copy, remove or otherwise alter any other user's files.
- I will be polite and responsible when I communicate with others..
- I will not take or distribute images of anyone without their permission.

### I recognise that the school has a responsibility to maintain the security and integrity of the technology it offers me and to ensure the smooth running of the *school / academy*:

- I will only use my own personal devices in school.
- I understand the risks and will not try to upload, download or access any materials which are illegal or inappropriate.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.
- I will not open any hyperlinks in emails or any attachments to emails, unless I know and trust the person / organisation who sent the email.

### When using the internet for research or recreation, I recognise that:

- I should ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not try to download copies (including music and videos)
- When I am using the internet to find information, I should take care to check that the information that I access is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.

### I understand that I am responsible for my actions, both in and out of school:

- I understand that the *school* also has the right to take action against me if I am involved in incidents of inappropriate behaviour, that are covered in this agreement, when I am out of school and where they involve my membership of the school community (examples would be cyber-bullying, use of images or personal information on DBPrimary).
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I will be subject to disciplinary action. This may include loss of access to the school network / internet, detentions, suspensions, contact with parents and in the event of illegal activities involvement of the police.

**Please complete the sections on the next page to show that you have read, understood and agree to the rules included in the Acceptable Use Agreement. If you do not sign and return this agreement, access will not be granted to school systems and devices.**

## Pupil Acceptable Use Agreement Form

This form relates to the *pupil* Acceptable Use Agreement, to which it is attached.

Please complete the sections below to show that you have read, understood and agree to the rules included in the Acceptable Use Agreement. If you do not sign and return this agreement, access will not be granted to school ICT systems.

I have read and understand the above and agree to follow these guidelines when:

- I use the *school* systems and devices (both in and out of school)
- I am communicating with other members of the school, accessing school email, VLE- DBPrimary ad the school website.

## Parent / Carer Acceptable Use Agreement Template

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies provide powerful tools, which open up new opportunities for everyone. They can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

### This Acceptable Use Policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school / academy systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that parents and carers are aware of the importance of e-safety and are involved in the education and guidance of young people with regard to their on-line behaviour.

The school will try to ensure that *pupils* will have good access to digital technologies to enhance their learning and will, in return, expect the *pupils* to agree to be responsible users. A copy of the Pupil Acceptable Use Policy is attached to this permission form, so that parents / carers will be aware of the school expectations of the young people in their care.

Parents are requested to sign the permission form below to show their support of the school in this important aspect of the school's work.

### Permission Form

Parent / Carers Name

Student / Pupil Name

As the parent / carer of the above *pupils*, I give permission for my son / daughter to have access to the internet and to ICT systems at school.

*I know that my son / daughter has signed an Acceptable Use Agreement and has received, or will receive, e-safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.*

I understand that the school will take every reasonable precaution, including monitoring and filtering systems, to ensure that young people will be safe when they use the internet and ICT systems. I also understand that the school cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies.

I understand that my son's / daughter's activity on the ICT systems will be monitored and that the school will contact me if they have concerns about any possible breaches of the Acceptable Use Policy.

I will encourage my child to adopt safe use of the internet and digital technologies at home and will inform the school if I have concerns over my child's e-safety.

## Use of Digital / Video Images

The use of digital / video images plays an important part in learning activities. Students / Pupils and members of staff may use digital cameras to record evidence of activities in lessons and out of school. These images may then be used in presentations in subsequent lessons.

Images may also be used to celebrate success through their publication in newsletters, on the school website and occasionally in the public media,

The school will comply with the Data Protection Act and request parents / carers permission before taking images of members of the school. We will also ensure that when images are published that the young people can not be identified by the use of their names.

In accordance with guidance from the Information Commissioner's Office, parents / carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published / made publicly available on social networking sites, nor should parents / carers comment on any activities involving other *students / pupils* in the digital / video images.

Parents / carers are requested to sign the permission form below to allow the school to take and use images of their children and for the parents / carers to agree

## Digital / Video Images Permission Form

Parent / Carers Name

Student / Pupil Name

As the parent / carer of the above *student / pupil*, I agree to the school taking and using digital / video images of my child / children. I understand that the images will only be used to support learning activities or in publicity that reasonably celebrates success and promotes the work of the school.

Yes / No

I agree that if I take digital or video images at, or of, – school events which include images of children, other than my own, I will abide by these guidelines in my use of these images.

Yes / No

## Staff (and Volunteer) Acceptable Use Policy Agreement

New technologies have become integral to the lives of children and young people in today's society, both within schools / academies and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe internet access at all times.

### This Acceptable Use Policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school / academy ICT systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of ICT in their everyday work.

The school will try to ensure that staff and volunteers will have good access to ICT to enhance their work, to enhance learning opportunities for *students / pupils* learning and will, in return, expect staff and volunteers to agree to be responsible users.

## Acceptable Use Policy Agreement

I understand that I must use school ICT systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the ICT systems and other users. I recognise the value of the use of ICT for enhancing learning and will ensure that students / pupils receive opportunities to gain from the use of ICT. I will, where possible, educate the young people in my care in the safe use of ICT and embed e-safety in my work with young people.

### For my professional and personal safety:

- I understand that the *school* may monitor my use of the ICT systems, email and other digital communications.
- I understand that the rules set out in this agreement also apply to use of school ICT systems (eg laptops, email, VLE etc) out of school, and to the transfer of personal data (digital or paper based) out of school
- I understand that the school ICT systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school. (schools should amend this section in the light of their policies which relate to the personal use, by staff and volunteers, of school systems)
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

### I will be professional in my communications and actions when using *school / academy* ICT systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and / or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital / video images. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (eg on the school website / VLE) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use chat and social networking sites in school in accordance with the school's policies.
- I will only communicate with students / pupils and parents / carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any on-line activity that may compromise my professional responsibilities.

**The school and the local authority have the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school / academy:**

- When I use my mobile devices (PDAs / laptops / mobile phones / USB devices etc) in school, I will follow the rules set out in this agreement, in the same way as if I was using school/equipment. I will also follow any additional rules set by the school/about such use. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted , or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up, in accordance with relevant school / academy policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school / academy policies. (schools / academies should amend this section in the light of their policies on installing programmes / altering settings)
- I will not disable or cause any damage to school / academy equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School / Academy / LA Personal Data Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based Protected and Restricted data must be held in lockable storage.
- I understand that data protection policy requires that any staff or student / pupil data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school / academy policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

**When using the internet in my professional capacity or for school sanctioned personal use:**

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

**I understand that I am responsible for my actions in and out of the school / academy:**

- I understand that this Acceptable Use Policy applies not only to my work and use of school / academy ICT equipment in school, but also applies to my use of school ICT systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school.
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors and / or the Local Authority and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the school ICT systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.
