

‘Releasing the Potential Within All’

School Improvement Plan for **Pupils** 2016-17

Each year, we look at how we can further improve and develop our school. As pupils at Beehive Lane School, what can we do to achieve our aims?

	What We Aim To Do	How can we achieve this?
	We want to achieve excellent standards in writing (including super sentences and spellings) and be fabulous readers!	<p>Read at least five times a week with our parents and discuss the text and answer questions on it;</p> <p>We use grammatically correct and interesting sentences in our talking and writing;</p> <p>Adopt a 'can do' attitude to writing at all times and aim high to improve;</p> <p>Work hard at our writing targets in lessons and assess ourselves against them;</p> <p>Take pride in our work, including producing neat handwriting;</p> <p>Take responsibility to ensure our homework tasks are completed to a high standard.</p>
	We want to be confident in reasoning and explaining in Maths and be great at mental maths!	<p>Practise our mental maths targets every day using our stepped targets in our homework books;</p> <p>Solve problems as often as we can with our parents, using examples from the real world, eg. shopping, giving change, managing pocket money, time telling, recognising shapes and angles, solving puzzles and logic problems;</p> <p>We will ensure homework tasks are completed on time and to the best of our ability.</p>
	We want to develop as local, national and global citizens and have an excellent Spiritual, Moral, Social and Cultural understanding	<p>Take an interest in and ask questions about local issues such as recycling, health and looking after the environment and find out information about famous people and buildings in your local area;</p> <p>Find out and ask questions about news stories and events from around the UK;</p> <p>Understand how democracy (eg. voting the school council) works, how rules and laws affect us;</p> <p>Listen carefully to lessons and assemblies about other cultures and compare and contrast them to your own, showing tolerance and respect for differences;</p> <p>Develop as global citizens, comparing and contrasting the lives of others around the world to our own;</p>
	We want us ALL to succeed, be safe, be committed and aspire to do our very best.	<p>Work hard to achieve our targets and set ourselves personal challenges to achieve;</p> <p>We will complete homework tasks to high standard;</p> <p>We will discuss e-safety with our parents and ensure they are clear about the potential dangers of internet contact;</p> <p>We will learn and understand what to do if we feel threatened or bullied, on-line or in the real world;</p> <p>We will take a full part in computing lessons, activities and discussions on e-safety.</p>
